

Lawrence Fellowship

A prestigious postdoctoral opportunity

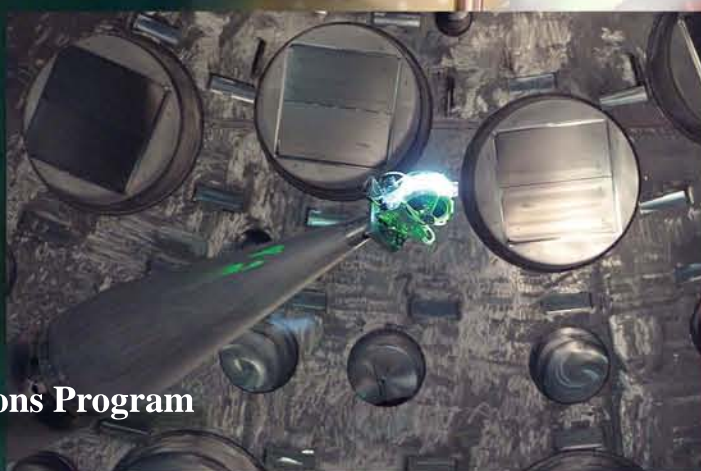

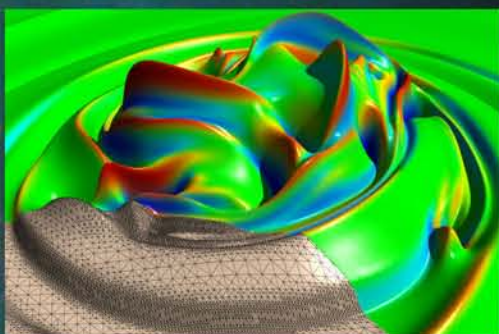

Science & Technology In The National Interest

History is made by those with the passion and vision to bring the brightest ideas to life. There is no better place to do that than the Lawrence Livermore National Laboratory. From working on cutting edge biological science to developing lasers for the National Ignition Facility to using the world's most powerful computers, the Laboratory has always been at the forefront of the world's most important scientific discoveries. Shouldn't you be able to say the same thing about your career?

Deadline for Applications is
December 1, 2004

You can apply online at:
